DIAMANTOPETRA - DIAMANTAKIS *dry*

Red Diamond Stone combines the characteristics and unique potential of two very important red varieties. The indigenous Cretan Mandilaria gives the blend its richness, tannicity and acidity, while the internationally and globally beloved Syrah emphasizes the richness and vigor of the wine. Our goal was to create a strongly flavored wine and at the same time to give the consumer the opportunity to enjoy the aromas of the Cretan land which remain unchanged throughout its history.
